# The Case for Change

Change needs to occur now to ensure delivery of health and social care meet the expert standards of **safety** and **quality** and that services are **sustainable** and **affordable**

## SAFETY & QUALITY

Keogh Review concerns  
Fragmented services  
Service integration

## POPULATION PROFILE

Ageing population  
Long term conditions  
Patients expect more

## Case for Change

## AFFORDABILITY

Financial pressures  
Deficit @ £111m by 2018

**WORKFORCE & IMT** Recruitment and retention  
Appropriate IT

## The story so far ... 2013 - 2014

July 2013

### LSSR Board set-up

to consider future of health and social care in Lincolnshire around four Care Design Groups

December 2013

## BLUEPRINT SIGNED OFF

May - August 2014

### Expert Reference Groups

set up to focus on detailed clinical design work >>> Gateway reviews

## ACTION: Design clinical blueprint

Sep/Oct 2013

### Care Summit

200+ attendees challenge and confirm a final Blueprint with CDG ideas, option outputs and proposals

Feb/March 2014

### Phase 2 Lincolnshire Health and Care set-up (LHAC)

Looking at:

- Models of care
- Pre consultation engagement ensuring staff, patients & public are informed

September 2014

### Early implementer sites

- Multi-disciplinary teams meet to discuss patients
- Board outlines potential next steps

## Key milestones and timelines 2015

Deliverables for assurance – and consultation	Timeline 2015
Options Appraisals and Commissioner Requested Services completed	June
Completion of service model development for the Strategic Outline Case	July
Development of services that do not need consultation, e.g. NT, CAS	July
Development of final options for consultation	August
Agreement of final Strategic Outline Case (SOC)	9 Sept
Lincolnshire Health Scrutiny Committee	16 September
Stakeholders and Partner Governing Bodies sign offs	Commences September
Overview & Scrutiny & Health & Well Being Board	24 <sup>th</sup> & 29 <sup>th</sup> September
Lincolnshire County Council Executive	6 October
Public consultation starts (min 12 weeks) post NHS Assurance	November

## The approach to establish a set of options for consultation

### The long list had 19 options

- This is too many to propose for consultation
- In order to develop a process to evaluate each option we have established a two stage evaluation process

## Approach

A seven-step process (consistent with guidance from HM Treasury) has been developed and used to appraise service delivery options for Lincolnshire.

The evaluation framework was developed with input from the JCB and consists of two sets of criteria:

- Binary ('hurdle') criteria
- Detailed evaluation criteria

The binary criteria were applied to the long list of service delivery options to arrive at a medium list.

The following slides offer a summary on this aspect of the evaluation.

# How we decide on the options – the criteria

- Initial draft criteria is based on LHAC Blueprint vision and similar programmes
- Consultation with LHAC Stakeholders, May 2015
- Long list of proposals measure against a binary criteria, leading to a evaluative criteria for a short list for agreement at JCB, Sep 2015, and governance and assurance
- Outcome is the list of proposals for public consultation, Dec 2015

## Binary criteria

The binary criteria consider three aspects which are also reflected in LHAC principles: Safety, Access and Affordability. The criteria do not consider deliverability, which is considered in the detailed evaluation criteria.

Criterion	Tests	Symbol
<b>Safety</b> <i>Does the option support safe and sustainable services?</i>	<ul style="list-style-type: none"><li>Does the option have critical mass to deliver safe services under national guidance?</li><li>Does the option meet minimum national safety standards?</li><li>Does the option consider clinical interdependencies?</li><li>Does the option meet Royal College guidelines and national/international best practice standards?</li></ul>	X
<b>Access</b> <i>Does the option provide appropriate access to essential services for the local population?</i>	<ul style="list-style-type: none"><li>Does the CRS analysis show appropriate access levels?</li></ul>	Δ
<b>Affordability</b> <i>Does the option reduce costs of providing care relative to maintaining the status quo?</i>	<ul style="list-style-type: none"><li>Does the option being considered cost no more than the current health provision?</li></ul>	+

## Evaluation criteria

Criteria	Proposed tests	Proposed weighting
<b>Quality of care</b> <ul style="list-style-type: none"> <li>Clinical quality and outcomes should be maintained and where possible improved.</li> <li>Patient experience should be maintained and where possible improved.</li> <li>Care should be integrated and focus on prevention and early intervention.</li> </ul>	<ul style="list-style-type: none"> <li>Assess attainment and compliance of clinical outcomes against standards referenced in Phase 2</li> <li>Assess combined friends and family test for preferred service</li> <li>Assess options against national guidance on safety requirements such as nurse to patient ratio</li> </ul>	30
<b>Access to care</b> <ul style="list-style-type: none"> <li>Care should be provided into closer-to-home / better value care settings wherever possible</li> <li>Ease and availability of care should be taken into consideration</li> <li>There should be at least as much patient choice as current provision</li> </ul>	<ul style="list-style-type: none"> <li>Undertake analysis of incremental increase in travel time</li> <li>Choice criteria built into the CRS analysis</li> <li>Inequality tests from CRS analysis</li> </ul>	20
<b>Affordability (Value for money)</b> <ul style="list-style-type: none"> <li>Long-term costs to the system (costs across the system in different domains must be considered)</li> <li>Better value settings should be provided where possible</li> <li>Ease of release costs needs to be taken into consideration</li> </ul>	<ul style="list-style-type: none"> <li>Assess costs of provision</li> <li>Assess income and expenditure benefit</li> <li>Assess impact on other organisations</li> </ul>	25
<b>Deliverability</b> <ul style="list-style-type: none"> <li>Ease of achieving transition towards new model of care</li> <li>Feasibility of obtaining required transition funding</li> <li>Ease of achieving workforce requirement (recruitment, retention, upskilling)</li> <li>Alignment with national and local political agenda</li> </ul>	<ul style="list-style-type: none"> <li>Assess the level of public and staff support with key stakeholders</li> <li>Review of the expected estates and recruitment risks</li> <li>Estimate expected time to deliver and transition costs</li> <li>Assess long term and financial sustainability</li> <li>Assess alignment of options to other strategies</li> </ul>	25

# What are we evaluating Urgent Care, Elective & Woman & Children's

MTC – Major Trauma Centre

SEC – Special Emergency Centre

EC – Emergency Centre

UCC – Urgent Care Centre

W&C OP – women's and children's outpatient

HY – Hybrid (small EC, with primary care urgent care at front door)

Hot – highly acute elective care

Cold – low acuity elective care

OP – outpatient diagnostic centre

W&C IP – women's and children's inpatient

## Emerging options

Enablers support these proposals and include:

- IMT
- Estates
- Transport
- Commissioning
- Contracting
- Workforce
- Estates

### Proactive Care

- NT x 12 roll-out in 2015
- Possibly commissioned by January 2016

### Urgent Care

- Single Point of Contact
- Major Emergency Care Centre
- Urgent Care Centre
- Integration into NT of acute setting activity

### Elective Care

- More elective care in community and primary settings
- Redesign pathway for clearer patient journeys

### Women & Children

- Consolidation
- Care through NT outreach
- Local consultation
- Day cases/in-patient only at main sites

# Route to consultation

June-July  
**Tender process underway for consultation partner**

July - August  
**Stage 2 pre-engagement**  
Intensive public focus groups and information sessions to test workstream options

## Formal Consultation with Lincolnshire Public

September  
**JCB to make recommendations of options for consultation**

October  
**Options to be reviewed at partner boards and go to NHS Assurance gateway**

November  
**Formal consultation**

- 12 week engagement
- Reporting by April '16

**Lincolnshire Health and Care**

Shaping services to meet your needs into the future

---
